PROJECTS

REMS | Online Intake 2.0

Aug 2021 - Present

- This project is for the Resource Education Management System (REMS), a product provided by Civica to Sixth form Colleges, FE Colleges, and some specialist training providers.

REMS | Markbook

Feb 2022 - Present

- The new REMS module will need to allow lecturers and staff within the college to record college-based and course-based assessments against learners. Target setting allows tracking of learner's progress throughout their life cycle.

REMS | Group Booking

Dec 2022 - Present

- We need to provide a web based solution for these clients to allow companies and third-party organizations to book multiple places on courses for learners and then make a single payment for these places at the end of the process by one agency or group.

School Management System | Intake IT Info

Dec 2020 - April 2021

- This project developed into Php With MySQL database. The main objective of this project is to make desktop base software data available to anywhere and students and teachers can see data from anywhere.

INTEREST

- Participating in social activities.
- Coordinating Events.
- Play Chess.
- Video Editing.
